Title: The Hall of the Clergy

Author: Unknown

Twas many a moon ago
when did the great
wizard go.

He'd gone on a quest to
find knowledge,
power and perhaps
eventually rest.

Lo he went abroad to
dank and dark places.
Searching, questing
and forever
wandering.

Till that day he came
to the halls of bone.

None know now
where he be, but it is
said ye will find him
in the vilest of places
serving as a fitting
trophy reminder to
the age old adage.

Do not take what you
cannot keep... tempt
thine fate against the
Darkness often
enough and it shall
reward thee...
